

At Phoenix Summer Camp, kids will participate in art classes, science experiments, soccer lessons, and swimming lessons twice a week.

By the end of the summer, our campers will be little chefs and engineers!

SESSION 1

5/30 – 6/30

Let's Get Cooking!

Campers will explore the joy of cooking by making and tasting food from different cultures. They'll discover the science behind cooking, harvest herbs from an herb garden, create camp side treats, and create their very own recipe!

SESSION 2

7/3 – 7/28

Planes, Trains, and Automobiles

Campers will discover the many different ways we travel. We will experiment with things that float, fly, and blast off into the sky. We will make our very own boats, paper airplanes, and rockets. We'll have car races, boat races, and relay races!

Join us for a summer filled with fun and learning!
